

13. (Thrice Amended) A lyophilizate, comprising

- (a) a monoclonal antibody or a polyclonal antibody;
- (b) a sugar or an amino acid sugar;
- (c) at least one amino acid; and
- (d) a surfactant,

wherein the lyophilizate contains no polyethylene glycols or additional proteins.

27. (Twice Amended) A lyophilizate, consisting essentially of

- (a) a monoclonal antibody or a polyclonal antibody;
- (b) a sugar or an amino acid sugar;
- (c) at least one amino acid;
- (d) a surfactant; and
- (e) an inorganic acid as a buffering agent,

wherein the lyophilizate contains no polyethylene glycols or additional proteins.

36. (Thrice Amended) A method of preparing a lyophilizate, the method comprising mixing a buffered solution containing a monoclonal antibody or a polyclonal antibody, a sugar or an amino acid sugar, at least one amino acid and a surfactant, to prepare a mixed solution, wherein the mixed solution has a pH value of 5-8; and lyophilizing the mixed solution, wherein the lyophilizate contains no polyethylene glycols or additional proteins.
